

PROJECT – 1

Date :- 30 – Dec – 2021

You have to create a Python Project by yourself and you have to choose the projects for same for yourself. The project should be Unique ! BY using the concepts of Python OOPS and use of

- 1.) Python Core
- 2.) JSON
- 3.) Python Request module
- 4.) Regular Expression
- 5.) MySQL
- 6.) MongoDB
- 7.) PostgreSQL

Create a Project for the same and deliver it on the next session of GUVI !
